

A New Zealand-founded brand. A global market outlook.

An introduction for retailers and distribution partners exploring the Tuzoo dietary supplement range.

About Tuzoo

Tuzoo is a brand founded in New Zealand and developed for global markets. This introduction is issued by JollyQuokka Limited for business enquiries. Product origin, manufacturing details and market eligibility are verified separately for each product and supplied batch.

Explore a trial partnership

We welcome conversations with retailers and distributors interested in evaluating Tuzoo for their customers. Trial samples and introductory wholesale terms may be available, subject to the destination market, compliance review, stock availability and agreed channel arrangements.

To start, please share your business name, website or store location, destination market, products of interest and an indicative trial quantity. We can then discuss the appropriate product information and proposed commercial terms.

What can be reviewed before an order?

- Current product labels, pack format and formula version.
- Batch-specific origin, manufacturer, date and storage information.
- Available supporting documents and their scope, where relevant.
- Sample availability, order quantities, delivery arrangements and wholesale terms.

This pack is an introductory information document, not a price quotation, regulatory approval or commitment to supply. Availability and suitability must be confirmed for the proposed market.

Two products. Clear version boundaries.

Product	Published pack information
Astaxanthin Softgels	60 softgels per bottle. Suggested use: one softgel daily. Approximately 60 days per bottle at that rate. The current formula does not contain alpha lipoic acid.
VC Radiance Tablets	120 tablets per pack. Suggested use: four tablets daily. Approximately 30 days per pack at that rate. Swallow tablets; verify instructions on the supplied label.

Before listing or merchandising

Use the label and documents for the actual stock offered. Historical Tuzoo packaging that lists alpha lipoic acid is a different version and should not be used to describe the current astaxanthin formula.

Do not infer that all Tuzoo products are made in New Zealand from the brand's New Zealand origin. Confirm the country of origin, manufacturer, ingredients, allergens, barcode and batch/date panel for each supplied product.
